

---

Mayor Hector C. Lora, along with the Passaic Police Department, have designated the Passaic Police lobby and rear parking lot area as Internet Transaction Safe Zones.

The internet has made the buying and selling of items much easier; but with that, also increases the likelihood of possible criminal activity to occur during some of these transactions.

The Passaic Police Department, with 24-hour video recording and staffed areas, minimize the likelihood for this criminal activity to occur. The Police Department is providing a safe and secure environment for these transactions to occur.

Note: The Passaic Police Department is not assuming any legal liability beyond that which would otherwise be present if the police department were required to respond to an incident occurring elsewhere in the community arising out of an e-commerce transaction where a crime occurred.
